Letter of Recommendation

To whom it may concern,

It is my great pleasure to write this letter of recommendation on behalf of **Hailemehlekot Melakie Tewokef** who was a student in computer science department at Debretabor University, and takes Fundamentals of Database, PHP, Data Structure using c++ and java programming course with me as his instructor in different semesters. Where he was a very inquisitive and engaged student with a very positive attitude throughout the year. he was a highly active participant in all class discussions and activities; while he contributed insightfully and always took our discussions to another level, he was also very supportive and inclusive of others and always listened thoughtfully to the contributions of his peers. In light of the demanding workload in my course, the grade that he earned took his much effort and determination. He always embraced challenges with optimism and dedication. He enjoys learning and is a true scholar. He comes readily to his teachers for any needed clarification, and I know his work ethic will take him far in life. I was very impressed by his maturity, judgment, and self-control. I have been nothing but impressed by the academic commitment and social maturity he has shown. He will undoubtedly become very involved in your organization and will be a positive asset to his peers and co-workers. Please contact me using the information provided below if you require any additional information.
